INNOVATIVE TECHNOLOGIES FOR ANIMAL REHABILITATION & NON - INVASIVE PAIN MANAGEMENT

FOR PAIN, INFLAMMATION, WOUND CARE AND ACCELERATED HEALING

Features

- Non-invasive and non-pharmacological
- Excellent for pets that do not tolerate NSAIDS
- 150 fifteen minute treatments
- Costs as little as \$0.81 per treatment
- Applicator comes in 2 sizes — 20 cm and 10 cm
- Weighs only 2 ounces
- Easy to administer
- Comfortable applicator is easy to position for therapy
- Treats directly through wraps, dressings and casts
- Can be used on any species
- Can be easily administered by the client in the home or on the farm
- Painless therapy for patients
- FDA cleared
- Made in USA

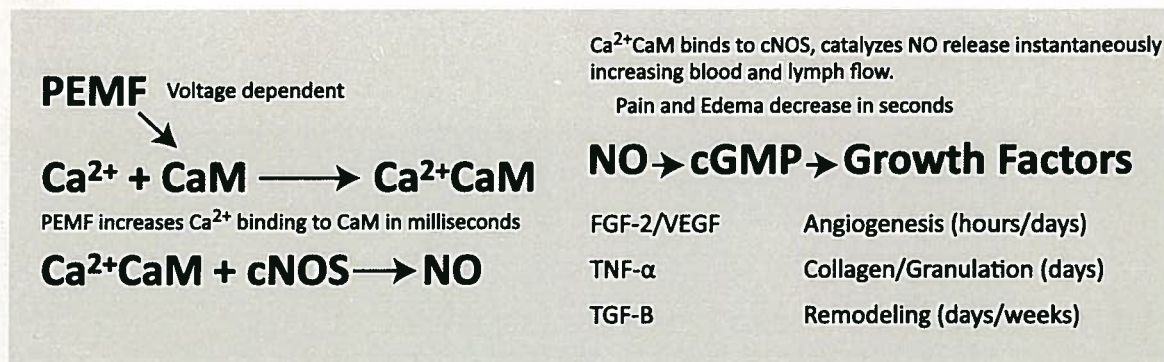

Mechanism of action identified

- Targets Calcium/Calmodulin binding (Ca²⁺/CaM)

Mechanism of action demonstrated

- Lab experiments using inhibitors conclusively confirm mechanism of action of tPEMF

Targeted signals modulate anti-inflammatory & growth factor cascades

INNOVATIVE TECHNOLOGIES FOR ANIMAL REHABILITATION & NON - INVASIVE PAIN MANAGEMENT

A UNIQUE PRODUCT FOR PATIENT CARE

BACKED BY SOLID SCIENCE AND CLEARED THROUGH RIGOROUS REGULATORY PROCESSES

- Cleared by FDA for treatment of post-operative pain and edema
- Medicare coverage for chronic wounds
- Approved for sale in U.S. and Canada
- CE marked for European market
- **Current veterinary uses:**
 - Orthopedic injuries
(ex., strains/sprains, torn cruciates, blown discs, muscle strains, fractures, broken bones)
 - Degenerative disorders
(ex., osteoarthritis, dysplasia, degenerative myelopathy, degenerative joint disease, spinal instability)
 - Neurological issues
(ex., IVDD, Wobblers Disease, neuropathy, myelitis, lumbar stenosis)
 - Wound Care
(ex., infected wounds, chronic non-healing wounds, lick granulomas)
 - Other inflammatory issues
(ex., pancreatitis, cystitis, tracheal bronchitis, laminitis)
 - Post-surgical pain and swelling
(ex., ACL repair, following amputations and removal of tumors, tooth extractions)

- Treatment depth is about 2/3 the diameter of the applicator, extending out on either side
- In the 20 cm applicator, treatment volume is ~22 cm across and 12.5 cm on either side of the applicator
- in the 10 cm applicator, treatment volume is ~12 cm across and 6.5 cm on either side of the applicator
- 1.6 ounce weight (45g)
- **New income stream for practices:**
 - Clinic treatments
 - Take-home units

OUR MISSION

HELPING THE HANDS THAT HEAL.

MUSCULOSKELETAL THERAPIES FOR ANIMALS (MTA) IS A MANUFACTURER'S REPRESENTATIVE THAT SPECIALIZES IN PROVIDING VETERINARY PROFESSIONALS THE WORLD'S MOST ADVANCED TECHNOLOGIES TO AIDE IN REHABILITATION AND PROVIDE ANIMALS WITH NON-INVASIVE, NON-PHARMACOLOGICAL RELIEF OF PAIN.

IT MUST BE THE BEST!

FOR OVER A DECADE, MTA HAS OFFERED OUR CUSTOMERS THE ADVANTAGE OF DOING THE LEGWORK FOR THEM BY ESTABLISHING RELATIONSHIPS WITH COMPANIES WHOSE PRODUCTS ARE THE VERY BEST OF THEIR KIND. THERE MUST ALSO BE COMPLETE TRUST IN THE CREDIBILITY AND INTEGRITY OF MANUFACTURERS TO STAND BY THEIR PRODUCTS AND PROVIDE FULL SUPPORT TO OUR CUSTOMERS.
