# Unparalleled efficiency and aesthetics for your practice.

Partner with Midmark to create the most efficient exam or treatment room possible. We perform clinical observation to develop products that help you optimize workflow and create an aesthetically pleasing workspace.

Canis Major® Dry Lift Table

Midmark has developed a variety of exam room tables that give you the flexibility you need to care for your patients. From our Canis Major® exam lift table to our fixed height island and peninsula tables that integrate with our high quality casework, you can achieve the look you desire with the function you need.

Folding Exam Table

The unique fold down design of our wall-mounted folding exam table features a stationary work surface perfect for charts, instruments and client education materials. Plus, a special "gas-assist" lifting mechanism makes raising and lowering the table a breeze. Midmark tables are designed to enhance your workflow and make you, your patients and clients as comfortable as possible.

Midmark offers adjustable and fixed height wet and dry tables that help you develop an efficient workflow in your treatment room.

Our wet and dry peninsula tables are available in 48" and 60" lengths and are designed to connect to a wall or casework. Our dry peninsula table can be ordered with an overhang (in either table length), or you can choose to add more storage below for point-of-care supplies.

Corded hand control raises and lowers the table with a remarkably quiet actuator that requires no internal maintenance.

Includes an 8-foot, lightweight, water temperature controlled sprayer for easy cleanup.

Optional, automatic weight averaging scale is accurate from 50 grams to 300 pounds, making it ideal for small exotics up to the biggest dogs.

Convenient debris trap between tub and drain can be removed and cleaned to keep your table functioning properly.

Treatment Room

# Midmark Dental Stations

Our space-saving designs allow you to have the equipment you need, where you need it without sacrificing floor space, creating the most efficient, effective space possible.

The VetPro® 5000 Dental Station includes the VetPro® 5000 Dental Delivery System, the VetPro® Solo Dental Compressor System and Midmark Treatment Table for a complete, space-saving dental work station.

## Exam and Prep Tables

Midmark fixed height tables feature our sturdy 18-gauge steel inner construction and are available in a variety of woodgrain and solid patterns. They integrate with Midmark casework, allowing you to create an aesthetically pleasing environment in your clinic.

Fixed Height Island

Fixed Height Peninsula

The VetPro® Solo is a unique, space-saving, oil-free compressor designed to provide drive air to the VetPro® 5000 wall, cabinet or table mounted dental delivery systems.
