FULLY INTEGRATED WITH UXR DR SOLUTIONS

- ✓ PARAMETERS CONFIGURED AUTOMATICALLY
- ✓ ENHANCED WORKFLOW
- ✓ ALWAYS OPTIMAL EXPOSURE - ELIMINATES DOSAGE ERRORS

X-RAY SYSTEMS

UXR X-ray systems deliver **best-in-class technical features for veterinary applications** at a **highly competitive cost of ownership**.

Compatible With Any DR Solution : Manual dose entry or full integration with UXR DR solutions.

Small Footprint : Compact design ideal for smaller X-ray rooms and space-constrained clinics.

Easy Foot Controls : Helps you stay focused on patient handling and positioning.

Powerful, Efficient Generator : Compact high-frequency generator 32 kW / 400 mA.

Floating Table : 1.68m (5.5 ft) table with smooth 4-way movement for precise patient alignment.

Sharp Imaging : 1.0 / 2.0 focal spots; or optional 0.6 / 1.3 for exotics and specialty practices.

Compatible With Any Detector : Adjustable 43 cm × 43 cm (17" × 17") detector tray.

Built For Daily Clinical Use : Heavy-duty table with weight capacity exceeding 150 kg.

Warranty Options : Standard 2-year warranty, with an optional 5-year limited warranty available.

UXR DIGITAL IMAGING SOLUTIONS

UXR's turnkey Direct Radiography Solutions seamlessly combine **advanced image acquisition software**, **cutting-edge computer hardware**, and **high-resolution Cesium detectors** to deliver **unmatched performance**.

Superior Image Quality : Industry-leading image clarity with lowest dose of radiation.

Flexible Configurations : Choose between HD/wired or high-performance SHD/wireless.

Streamlined Workflow : Optimized for efficient veterinary X-ray imaging processes.

Versatile Solutions : Ideal for retrofits or seamless integration with UXR X-ray systems.

Seamless Integration : Supports integration with compatible Practice Management Software.

Multilingual : UXR View Software available in English and French.

Reliable Support : Comprehensive training and remote assistance.

UXR **INTRAORAL IMAGING** SOLUTIONS

BY THE VETERINARY IMAGING EXPERTS IN CANADA  SINCE 1949

UXR's Intraoral Imaging Solutions combine **ultra-low dose/high resolution, intraoral DR sensors and computer hardware** with **advanced veterinary acquisition software**.

Choice of Sizes : Available in sensor size 2 (regular) and size 1 (small).

Flexible Reporting : Easily generate examination reports.

Multilingual : UXR View Software available in English and French.

Streamlined Workflow : Optimized for efficient veterinary X-ray imaging processes.

Seamless Integration : Supports integration with compatible Practice Management Software.

Ergonomic Design : Ultra-thin kevlar housing, smooth edges, rounded corners, and reinforced flexible cable.

Reliable Support : Includes a 2-year limited warranty with comprehensive training and remote assistance.
